

How to Use the Homework Calendar

1. On the next page you find a blank template for the calendar.
2. Write in the subjects on the "SUBJECT" lines.
3. Write in the homework assignments for each subject for each day of the week.
4. Enter a value amount in each "VALUE" slot for each subject assignment. This value is the amount the student can earn for completing the homework assignment.
 - **Variation:** Partial value amounts can be given for quality of work or partial completion.
5. At the end of each day, add up completed homework value and place the total in the deposit column (D+).
6. If an assignment is not completed, the value of that assignment goes in the withdrawal section (W-).
7. Students subtract the (W-) from the (D+) and enter the total in BALANCE.
8. Steps 4-6 is done every day except, the balance from the day before is added to the present day balance.
 - **Balance amounts can be given on a daily basis or at the end of the week.**

Week of _____ Date _____ **HOMEWORK CALENDAR** for _____ Student Name _____

MONDAY					W(-)	D(+)
	Value:	Value:	Value:	Value:	BALANCE	
TUESDAY					W(-)	D(+)
	Value:	Value:	Value:	Value:	BALANCE	
WEDNESDAY					W(-)	D(+)
	Value:	Value:	Value:	Value:	BALANCE	
THURSDAY					W(-)	D(+)
	Value:	Value:	Value:	Value:	BALANCE	
FRIDAY					W(-)	D(+)
	Value:	Value:	Value:	Value:	BALANCE
